Selwyn T20 Rules Social grade 26-27 Season

- Games consist of 20 overs per team.
- Games start at 2pm Saturday or Friday night 5ish….
- A batsman must retire once their score passes 50 runs.
- A retired batsman may return once the rest of the team has been dismissed other than the last batsman. If two or more players have retired then they can come back in the order they retired.
- White balls are to be used
- The maximum overs for each bowler is 4
- Overs consist of 6 balls
- Wides are normal cricket rules and there is no limit on the amount of wides that can be bowled in any over
- Wides are worth 1 run to the batting team as per normal cricket
- If a player is attempting to hit the ball then they can't be given out LBW
- New Fielding restrictions
    - Teams can have no more than 4 players on the boundary for the first 10 overs and no more than 5 players on the boundary for the last 10 overs. **(not on the boundary means being within approx. 30 meters of the pitch)** Please don't create issues by being a muppet and pushing the limits as there'll be bugger all painted lines on the fields.
    - A no ball will be called if teams are in breach of these fielding restrictions
- **There is free hits in this grade for no balls (this is a change)**
- A ball over shoulder height is a no ball. Over the head is a wide
- Other than these all normal cricket rules apply.
- If there is rain on Saturday morning then captains can contact each other to call games off (the round will not be cancelled as a whole)
- If there is rain during a match the minimum amount of overs for a match is 8 per team with bowlers bowling no more than two overs each in this situation.
- Captains can decide as to the conditions at the time.

Competition points are as follows
Win : 6
Draw/Tie/Rain off : 3
Bonus points for the winning team as follows :
If the team **Batting first** wins then they receive a bonus point if they win by 40 runs or more
If the team **Batting second** wins they receive a bonus point if they only lose 3 wickets or less (retired doesn't count as a wicket lost)

At the completion of the round robin the following will occur.
The top 6 teams and bottom 6 will split. Points carry through and the teams finishing in the even numbers will play the odd numbered teams. Then there'll be a top 4 found for semis and the final. Likely finish March 20th for the final.

If it rains on knock out days then the top qualifying team wins the match.
Contacts. (let me know if anything is wrong in the below)
